

Weston All saints Primary
SCHOOL SPORTS PREMIUM FUNDING

YEARLY OVERVIEW 2014/15

Impact of spending

Year nought gymnastics coaching

All 90 children in Yr0 have received weekly gymnastic sessions from Baskervilles' coaches throughout the year.

Specialist coaching is particularly effective at this early age to enable correct techniques to become embedded. The Yr0 teachers attend these sessions gaining valuable CPD.

Ballroom Dancing

Both Yr6 classes have received at least two terms worth of ballroom dance lessons from professional ballroom dance couple James and Joanna.

This has impacted upon the children socially with frequent changing of dance partners and also hugely improved their dance knowledge and skill base.

The children have performed at a selection of events throughout the year.

During terms 5 and 6 children in Yr5 have been invited to join sessions to work towards a specialist piece.

Updating resources

With an ever growing school the resources are more frequently used. Everyday perishables need replacing but with this funding we have also chosen to invest in resources with legacy in mind. Money has been spent on quality equipment that will be long lasting and be used by as wide a range of ages as possible. New benches for gymnastics, football posts, tennis nets and much more have been purchased.

SportsmarkUK

Each year we employ SportsmarkUK. They complete an annual safety check of internal equipment in both halls and replace or repair items in need.

Transport

With staff now trained as minibus drivers we have been able to use minibuses to travel to distant fixtures during daytimes when parent have found transporting their children. The minibus has been hired twice this year for Girls' football and Boys' tag rugby. Both of these events were Level 3 (county) events showing how well the children are performing.

School playing field

After the field was levelled drainage has been a constant problem resulting in compacted soil which in turn results in inadequate grass coverage. We have arranged for drainage to be installed over the summer and for the playing surface to be dressed. This will extend the time children can use the field both for playtimes and sports. The current situation is that it is too wet in the winter and baked too hard in the summer.

Swimming

Money has been used for pool resources both in terms of upkeep and physical resources. With 530+ children using this facility it is money well spent.
