

Dear diary June 1910

It was the first day of our adventure. We set sail from Cardiff on our boat called the Terra Nova. everyone was excited!

Dear diary

Things aren't going so well.

Everyone is so cold and tired. Our ponies do not like the freezing temperature and we don't have enough dogs. I am feeling worried.

Dear diary 17th January 1912

We arrived at the South Pole, but we are not the first to arrive because the Norwegian flag is already here. They got here on the 14th. That makes us all feel sad and disappointed but I'm

glad I have made it.
