

## **Home Learning**

Please note that all home learning has been moved to Class Dojo. Please continue to send in your work via Portfolio so all your teachers can see what you have been working on.

We will leave the work below for you to access at any time.

## **Phonics/ Daily reading**

To help your child with their reading, we have prepared some short phonic teaching clips that you could use daily. These very short activities would normally happen every day in school, and each clip only takes a minute or so to watch.

## **Relaxation**

When in school we often play some relaxing music straight after lunch time play and do some relaxation exercises. Please find a [relaxation activity](#) here. You may want to listen to some relaxing music at the same time.
