

Voluntary One-Way system along Broadmoor Lane

Broadmoor Lane is particularly busy at morning drop-off and home time. It is also narrow and in some places has no pedestrian footpath.

To try to ease this congestion and make the area around the school safer for our families and local residents, we are reintroducing our Voluntary One-Way system starting after the Easter break.

We encourage everyone to use this between 8.30am to 9.15am and 2.45pm to 3.30pm.

The aim of the One-Way route is :

- to make dropping pupils off at school a quicker, easier and safer experience
- to reduce the risks to pedestrians and vehicles when drivers are forced to make way for someone driving against the main flow of traffic
- to reduce the risks from vehicles turning or reversing within the key area outside of the school premises. The chances of hitting a small child are greater in reverse when visibility is reduced.
